HIGH DEFINITION VIDEO SURVEILLANCE

SOLUTIONS FOR EVERY APPLICATION

Why Choose i2c Technologies? ▼

i2c Technologies has been designing and installing cutting-edge IP video surveillance solutions and access control for over 12 years. Every i2c network camera system is designed by an IT expert, and we only install world-class equipment, like AXIS brand cameras. Because we realize that protecting your facilities and sites shouldn't endanger your company's network security and performance.

Smart, Integrated Solutions for Every Oil and Gas Application ▼

Whether you need video surveillance for your facilities, wireless cameras to monitor outdoor areas and storage lots, access control for entrances or restricted areas, deployable surveillance for remote well and compressor sites, or an integrated system that includes all of the above, we can engineer a solution that meets your needs and your budget.

i2c System Features ▼

- Indoor and/or Outdoor AXIS HD Cameras
- User friendly software with easy retrieval, archive, and distribution of recordings
- Real-Time alerts and remote access via any mobile device
- Full Microsoft Active Directory Support
- One year warranty on all parts, labor, support, and software updates

Also Available ▼

- Thermal and infrared cameras ▪ Pan, tilt, zoom and panoramic cameras
- Keyless gate/door entry solutions ▪ Solar powered systems
- Covert cameras and housings ▪ Portable and deployable systems with onboard video storage
- Wireless cameras ▪ 24/7 monitoring ▪ Extended service agreement to keep your system like new

VX400 Deployable Pole Camera
Covert Housing Protects the System from Detection and Vandalism

" i2c Technologies has been a superb partner in increasing our corporate security posture. Their top of the line equipment combined with experts who understand our needs in the field and our office environments make i2c an invaluable partner as we improve our security systems."

Brendan P. Joliet ▪ Security Manager, Eclipse Resources

Thermal Cameras detect movement, "see" leaks and temperature variances
