SOLUTIONS FOR EVERY APPLICATION

The VC400 Video Surveillance Cart

The VC400 is a complete, mobile video surveillance solution, designed for easy deployment of up to 16 cameras anywhere they are needed. It seamlessly integrates a variety of AXIS cameras, our advanced video management software, and onboard video storage, in a durable, mobile cart.

The VC400 is ideal for:

- Monitoring process control
- Securing high value assets
- Evaluating worker productivity
- Additional facility security
- Maintaining workplace safety/compliance
- Loss and vandalism prevention
- Remote monitoring

The VC400 Supports a Variety of AXIS cameras

Low light • Thermal • PTZ • Covert
Ruggedized • Panoramic • Indoor • Outdoor

i2c System Features

- Supports up to 16 AXIS high definition and/or thermal cameras
- Onboard storage of up to 90 days of 24/7 recordings
- Remote Connectivity via cellular data modem or any IP connection
- Each camera can be connected with single cable up to 330' from cart
- Built-in HD Monitor, Keyboard and Trackpad for easy setup
- Locked Steel Cabinet protects the unit from unauthorized access
- User friendly software with easy retrieval, archive, and distribution of recordings
- System can interface with a wide variety of SCADA monitoring equipment and can tag video when a process error occurs
- System can be connected to the plant's computer network to allow staff to view live cameras or to retrieve stored video
- Thermal cameras can be used to "see" heat and notify when temperature thresholds are exceeded
- Supports both indoor and outdoor cameras
- Video can be copied to USB Flash Drive and played on any Windows Media Compatible PC
- Provides real-time alerts and remote access to live video via any mobile device
- One year warranty on all parts, labor, support, and software updates
- Extended service agreements are available to keep your system like new.

Why Choose i2c Technologies?

i2c Technologies has been on the cutting edge of providing innovative IP video surveillance solutions and software for over 12 years. We have designed self-contained video monitoring systems for a diverse range of business and government applications across the U.S.

i2c Technologies uses only AXIS brand cameras, so you can have peace of mind knowing you are getting the most reliable, best-in-class video surveillance products on the market. Every camera system comes with a one year, full service guarantee. And you can keep your system running like new, year after year, because i2c Technologies offers an affordable extended service agreement that covers all parts, labor, support and software upgrades.
