HIGH DEFINITION VIDEO SURVEILLANCE

SOLUTIONS FOR EVERY APPLICATION

Why Choose i2c Technologies? ▼

i2c Technologies, has been providing cutting edge network video surveillance solutions and software for government entities for over 12 years. Every i2c network camera system is designed by an IT expert, and we only install world-class equipment, like AXIS brand cameras. Because we realize that protecting your facilities and communities shouldn't endanger your network's security and performance.

Smart, Integrated Solutions for Every Government Application ▼

Whether you need video surveillance for your facilities, wireless cameras to monitor parking lots and playgrounds , access control for entrances or restricted areas, deployable surveillance for high crime areas or public events, or an integrated solution that includes all of the above, we can engineer a solution that meets your needs and your budget. Because i2c Technologies is an **Ohio state term schedule vendor** you can rest assured that you're getting the best price for the best equipment on the market.

i2c System Features ▼

- Indoor and/or Outdoor AXIS HD Cameras
- User friendly software with easy retrieval, archive, and distribution of recordings
- Software that can support hundreds of cameras on one network
- Software that runs on standard file servers or a virtualized server environment
- Wireless networking products that can extend the facilities' physical network anywhere cameras are needed
- Converters to upgrade existing analog cameras to modern IP
- Full Microsoft Active Directory Support
- Real-Time alerts and remote access via any mobile device
- One year warranty on all parts, labor, support, and software updates

The VX400 Deployable Pole Camera Covert Housing Protects the System from Detection and Vandalism

View Live Video from any Mobile Device
